Hey Ray. (b) (6)

I had called for a couple of reasons: 1) to bitch and whine about the effort, hoops, and money we spent to get the XRF to DEQ, and then after about 4 samples for DEQ to then turn around and say, "no thanks, we really decided we don't need you or it", and 2) to get a feel for what the soil sampling data is looking like so we can start thinking about potential removal actions (that is if you guys need us to do any). I imagine that the data will be given out when you guys are ready, and we'll deal with it then.

(b) (6) ! And have a great weekend.
